

KIRK Handset Z-40XX Series

Creating wireless communities

Graphic display and alarm key are two very important features of the new KIRK Z-40XX series.

The handsets have been developed to expand the range of KIRK handsets in order to reach new segments of customers.

The handsets are very robust and durable industrial handsets, developed to resist dust and humidity.

A number of KIRK OEM partners have developed segment oriented handset applications that increase the functionalities of the KIRK wireless communication solutions. The handset cover can be graphically adapted to customer specifications.

KIRK Z-4020: A high value & low cost handset, targeted at industry, warehouse, and retail segments.

KIRK Z-4040: A classic high quality handset with many functions, targeted at office, hospital and personal security segments.

KIRK Z-4080: The ultimate handset, targeted at explosive environments within oil, gas, and chemical production.
